Subject: Advisory for the parents regarding Hand, Foot & Mouth Disease (HFMD) among the kids

Dear Parent,

This is to convey to the parents of the Kindergarten & Grade I & II children that the cases of Hand, Foot & Mouth Disease (HFMD) are being reported off and on among infants and younger children under the age group of 5 years.

Since it is a non-dangerous but highly contagious viral disease and school is the most common site for transmission of infectious disease, parents are requested not to send their ward to school if he or she has the symptoms of high body temperature, flu, mouth ulcers often on the tongue, inability to swallow and desire to drink only cold liquid, the rashes on the palms, hands and soles of the feet.

(Dr. Muzaffar Hassan)
Principal
