International Indian School –Jeddah invites quotations from reputed and experienced construction companies for the inspection and evaluation of the boys' section building. The scope of work involves an assessment of the existing structure and preparation of a report for the feasibility and requirements for the construction of an additional floor.

The tasks to be performed are as follow

1. Inspection of the existing building – A detailed inspection of the boys' section building, including structural evaluation and condition assessment.

- Steel Reinforcement testing to detect bar size, cover & spacing.
- Foundation size & soil bearing capacity.
- Visual inspection & documentation.
- Dimensional survey.
- Structure analysis & modeling.
- Final assessment & Recommendation

2. Feasibility Report –Based on the detailed structural inspection, Provide a feasibility report regarding the potential addition of a Second floor, including any required modifications, structural reinforcements, and compliance with safety and building codes.

3. Lightweight structural Design Suggestion- Architectural or engineering designs that use materials and construction techniques with a primary focus on minimizing the overall weight of the structure while maintaining its strength and functionality.

4. Cost Estimate – Estimation of the full cost involved in adding the second floor, including materials, labor, and other associated costs.

5. Please see the annexure for reference.

Note:

Final Quotation may be sent through email: tenders@iisjed.org & ao@iisjed.org Within 07 days of this notification.
