

VISIT TO EFFAT UNIVERSITY

A field visit was conducted to Effat University's College of Architecture and Design in Jeddah on **7th May 2025**. The visit was an inspiring and enriching experience for all participants.

Upon arrival, students were warmly welcomed by the university administration and students. The university provides excellent facilities in the fields of Interior Design, Architecture, and Cinematic Arts. During the visit, students were given hands-on experience in the departments of Interior Design, Architecture, and Cinema Making. This practical exposure allowed them better understand the creative processes involved and observe how theoretical concepts are transformed into real projects.
