

FUTURE IN FOCUS

“The future belongs to those who prepare for it today”

The Career Guidance Cell organized an interactive career guidance session for students of the **Science and Commerce streams** with the objective of providing clarity on future academic pathways and career opportunities. The sessions were conducted separately to ensure focused and stream-specific guidance. The session for Commerce I and Commerce II were conducted on 28th August, 2025 and 2nd September 2025 respectively while the session for Science stream was held on 1st September 2025.

Principal Mr. Mohammed Imran addressed the students and encouraged them to pursue their passions with dedication and determination. He emphasized the importance of making informed decisions about their future and urged them to carefully evaluate their interests and strengths while selecting career paths.

Mrs. Safa.K, Career In-charge spoke about the importance of focusing on one's goals at the earliest stage of studies. She highlighted how early planning, clarity of vision, and consistent effort can help students build a strong foundation for future success.

Mr. Saidalavi, Career In-charge elaborated on the various courses and opportunities available in both the Science and Commerce fields. He provided valuable insights into career options such as engineering, medicine, and research in the Science stream, as well as finance, business management, and entrepreneurship in the Commerce stream. His talk helped students understand the diverse academic routes and professional possibilities open to them.

Dr Abdul Hamid (HM) also addressed the students, reinforcing the importance of informed career choices and motivating them to explore opportunities with confidence.
