

IISJ Career Guidance Cell- DIY Life Skill Workshop

The Career Guidance Cell Boys Section conducted DIY Life Skill Workshop on 9th May 2026. The workshop was designed as a hands-on educational initiative aimed at transforming students from passive learners into active creators. Through engaging activities and practical experiences, students were encouraged to explore creativity, teamwork, communication, problem-solving, and other essential life skills.

By working with physical materials and participating in interactive sessions, students were able to bridge the gap between theoretical classroom learning and real-world application. The DIY workshop blended innovation with life skill development, creating an enriching and memorable learning experience for all participants.
