

Career Zone 2.0

The School Career Guidance Cell hosted “Career Zone 2.0: Inspiring Journeys - Real Voice” on October 12, 2026, bringing together Grade 12 students and distinguished alumni at the school auditorium.

Building on the success of the previous edition, the event featured prominent alumni who returned to their alma mater to share their insights on career pathways, professional challenges, and higher education options following completion of the twelfth grade.

The interactive session blended personal reflection with actionable career advice, giving students a broader perspective on the possibilities awaiting them post-school. During an engaging Q&A, students explored career options and gained clarity on future goals while learning the importance of perseverance, adaptability, and lifelong learning.

The guest speakers included prominent industry leaders and professionals:

Dr. Jemshith Ahmed, Vice President- Strategic Planning , Abeer Medical Group.

Mr. Omer Aqeel Khan, Data Center Program Manager, Johnson Controls Arabia.

Ms. Shedha Bashir, Experience Designer, Hyper Active.

Mr. Mohi Faqueer Ahmed, Logistics and Projects Manager , Arabian Establishment.

Addressing the gathering, IISJ Principal Dr. Mohammed Imran emphasized the critical role of early career planning plays in a student’s life. He highlighted the institution's commitment to supporting students beyond academic achievement and preparing them for real-world success.

The "Career Zone 2.0" initiative underscored IISJ’s ongoing dedication to providing comprehensive career guidance, equipping its graduating class with both the confidence and strategic vision needed for their academic and professional journeys ahead.
